EDUCATION

Rutgers University

New Brunswick, NJ

B.A in Philosophy & Psychology

December 2016

Rutgers University

Full Stack Development Certificate

New Brunswick, NJ

March 2017

TECH EXPERIENCE

Arity LLC

Full Stack Developer

February - September 2017

- Contributed to the open source Acid/Lucy Javascript utility libraries.
- Collaborated in the development of docredux. Docredux is a document generation software which was used to generate HTML to exhaustively explain the utility libraries Acid/Lucy.
- Aided in development of unit testing software known as nbome25. Nbome25 quality controls the Acid/Lucy libraries and ensures each utility performs as it is expected to.
- Played a part in every stage of development of aforementioned technologies.

Trilogy Education Services

Full Stack Tutor

June 2017 - Current

- Tutored HTML5, CSS, Bootstrap, Materialize, uiKit, REST, CRUD, APIs, JS, Node, ORM, ODM, MongoDB, MySQL, React, Handlebars, Debugging, MVC Architecture, and a multitude of other technologies that are mainstays in full stack bootcamps.
- Developed an ability to communicate in a coherent way about full stack technologies to people who have no background in it.
- Received overwhelmingly positive testimonials from students

RESEARCH EXPERIENCE

New Jersey Institute of Technology, Biomedical Engineering Department

Research Coordinator

March 2017 - Current

- Responsible for recruitment, phone screening, live screening, subject training, biometric data collection, and administration of intelligent proficiency assessments of subjects using the WISC-V (Weschler Intelligence Scale for Children - Fifth Edition)
- Consultant to Biomedical Department research directors
- Responsible for maintaining/generating itinerary for subject screenings, subject test administration, subject training, and subject fMRI data collection
